

Meeting Agenda

Date/Location: 6-March-2025, Discord meeting.

Information Updates/Reminders

- The next 5-6 weeks, we are going to work on a project.
- Everyone should be able to use github, github wiki's, Trello, Discrord.

Decisions Needed

- For frontend we will use **HTML** and **CSS** for backend we are using **php** and for database we will be using **mysql**
- The team has decided to use **PHP** Laravel as the framework for project implementation.

General Items

- **Trello board for the project update has been created:**

<https://trello.com/invite/b/67f7fa05c9a9be932c6dd1b8/ATTI65186847dd530d9192425ca8176fe0dd43528E14/e-commerce-website-auto-world>

- **Discord channel for project communication:**

<https://discord.gg/FaNCHwrG>

- **GitHub repository for the project has been created:**

<https://github.com/mashikur-sijan/e-commerce-website>.

One team member will manage the repo and invite the rest of the team members.

- GitHub wiki pages need to be set up to document project details.
- All team members should be allocated to check coding standards. They must define at least two coding standards.
- All team members should be allocated to research documentation tools. They need to recommend at least one or two tools with a brief summary of their usage, advantages, and disadvantages for source code-level documentation.
